Coaching in UCD

- Coaching is a professional relationship which facilitates learning, performance and development of people. It is about improving effectiveness and achieving results, focussing on measurable steps of success.
- Identified a need for specific coaching in discussion with their manager during Performance for Growth conversation.
- First step would be to review the biographies of the **Internal Panel Members**.
- Coaching ordinarily involves approximately 4 or 5, sixty minute meetings, once every 3-6 weeks, arranged at a mutually convenient time for the coach and coachee.
- If you would like to proceed with an internal coaching arrangement, please contact peopledevelopment@ucd.ie for further information.
